Dear Ms Walli:

**Re: Board File Number: EB-2009-0326/
microFit Consultation**

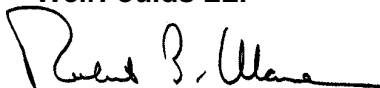

We are counsel to the Consumers Council of Canada (the "CCC").

By this letter we are giving notice of our client's request for cost eligibility for its participation in this matter.

Our client is a public-interest, non-profit entity which represents the broad array of residential consumers of electricity. The outcome of this proceeding will have an impact on the rates paid by residential consumers. Our client has no funds to support its intervention in this consultation. In the absence of a cost award, our client would not be able to participate.

Yours very truly,

WeirFoulds LLP
