Dear Kirsten:

**PDI / FUSE Fund 2009/ 2010**

I am writing this letter to inform you PDI intends to continue with the FUSE program for 2009/ 2010 season due to the delay in the implementation of the LEAP program. The FUSE fund is a year round program and therefore, there may be some overlap when the LEAP fund is activated. I don't foresee this being an issue as a participant in the LEAP financial group, it was clear that over funding of any Low Income energy fund has never been or will never be an issue...

In the LEAP meetings, LDC's who had existing programs were asked if they would continue with their existing programs for the 2009/ 2010 season. There was also discussion that LDC's may be able to track funds allocated to these programs for 2009/ 2010 in a variance account for potential future recovery under the LEAP process. Has there been any further discussion or decisions made regarding this issue?

Should you have any further questions, please contact me directly.

Yours very truly,

David Whitehouse
