Ms. Kirsten Walli
Secretary
Ontario Energy Board
2300 Yonge Street
Suite 2700,
Toronto, ON.
M4P 1E4

Dear Ms. Walli:

EB-2009-0326 – OEB Recovery of Costs Associated with microFIT program – Hydro One Networks' Inc. Evidence

In response to the Ontario Energy Board's October 22, 2009 Procedural Order # 2 on the Proceeding to determine and implement a distribution rate for embedded generators having a nameplate capacity of 10 kW or less, Hydro One Networks' ("Hydro One") is providing the following evidence as an intervenor. This evidence is the same evidence filed by Hydro One in Proceeding EB-2009-0096.

NEW FIXED CHARGE FOR MICRO-GENERATORS

As a result of the Green Energy and Green Economy Act, 2009, approved by the Government it is expected that a substantial number of micro-generators will be connected to Hydro One's Distribution system in the coming years. The connection of these micro-generators, below 10 kW, uses the same facilities as the main account for the customer. The only incremental facility required is a meter. Hydro One Distribution proposes to use as a fixed charge in these situations, the equivalent of the fixed charge credit provided to Unmetered Scattered Load ("USL").

Sincerely,

ORIGINAL SIGNED BY SUSAN FRANK
