Any increase in North Bay Hydro rates to consumers will adversely affect seniors in their homes .

Along with the recently installed "smart meters" ,(not currently in service) , and the HST of the Mc Guinty gov't.

I propose that seniors , particularly those owning their own "electrically heated homes ," are thereby forced to pay more of the costs of electricity in this province .

Therefore , I am definitely against this increase in delivery charges .

Sincerely ,

T.M. Whelan , 643 Norman Ave .,
North Bay ,ON P1B 8C2
