Dear Ms. Walli:

**Re: EB-2009-0154 – Enbridge Gas Distribution Inc. 2010 Natural Gas Demand Side Management Plan**

BOMA has had the opportunity to further review the material related to Low Income in EB-2009-0154 in greater detail and has the following clarifications to its earlier submission.

Although there may be some broad market transformation impacts due to the proposed solar thermal pilot, the rate impacts and benefits of this initiative will not impact BOMA members directly. BOMA is a strong advocate for energy conservation and renewables, but also supports that costs for these programs be aligned to the customer classes where benefits will be generated.

Therefore, BOMA withdraws its opposition for this initiative.

Yours truly,

Chuck Stradling  
Executive Vice President  
BOMA Toronto
