Ms. Kirsten Walli  
Board Secretary  
P.O. Box 2319  
Ontario Energy Board  
2300 Yonge Street, 27th Floor  
Toronto, Ontario M4P 1E4

Dear Ms. Walli:

Re: Request for Intervenor Status and Cost Award Eligibility  
Ontario Power Authority (OPA) 2010 Revenue Requirement  
Board File No. EB-2009-0347

I am writing pursuant to the Board's Notice of Application and Hearing dated November 27, 2009 for the above proceeding, to respectfully request that the Board grant AMPCO intervenor status in this application. I am also requesting that the Board confirm AMPCO's eligibility for an award of costs in this matter.

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent a cross-section of Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO, and its member companies, are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board (OEB). AMPCO works as far as possible with other industry and consumer interest organizations, both outside and within OEB proceedings. Specifically, AMPCO has represented the interests of consumers in electricity distribution rate cases and OPG payment amount increases as well as OEB policy initiatives such as the review of distribution rate design, the development of 2<sup>nd</sup> generation and 3<sup>rd</sup> generation incentive regulation, service quality regulation and transmission connection cost responsibility. AMPCO also intervened in the OPA's 2009 Revenue Requirement Proceeding.

AMPCO is interested in issues related to the price, adequacy, reliability and quality of electricity service. We also are interested in the costs and operational effectiveness of the OPA in relation to how it fulfills its statutory objects and purposes of the Electricity Act. AMPCO is also interested in the investments related to the *Green Energy Green Economy Act*.
