Mr. Glen MacDonald
Senior Advisor – Regulatory
Research and Administration
Hydro One Networks Inc.
8th Floor, South Tower
483 Bay Street
Toronto ON M5G 2P5

Dear Mr. MacDonald:

**Re: Leave to Construct a Transmission Reinforcement Project between the Bruce Power Facility and Milton Switching Station, all in the Province of Ontario (Bruce-Milton Transmission Reinforcement Project) – (EB-2007-0050);
Access to Land prior to approval of Leave to Construct the Bruce-Milton Transmission Reinforcement Project – (EB-2007-0051)**

The Board received on May 10, 2007 the affidavits of service and publication of the notices on the above applications filed by Hydro One.

The Board understands that Hydro One was unsuccessful in its attempts to serve the notices on a certain number of directly affected landowners. We also understand that Hydro One is making further efforts to re-deliver the notices to these landowners.

Please provide the Board with an update on notification status and on the steps that Hydro One is taking to serve the notices in accordance with the Board's Letters of Direction. Please file the update no later than 5 days from the receipt of this letter.

Yours truly,

Original Signed By

Peter H. O'Dell
Assistant Board Secretary
