Dear Mr. Pappas:

**Re: Hydro One Networks Inc.
Application for Leave to Construct Bruce-Milton Transmission
Reinforcement Project - Board File No. EB-2007-0050**

Your letter dated November 22, 2007, raised a concern regarding Hydro One's reliance on evidence from the Ontario Power Authority ("OPA") and how the various participants in that proceeding can review and examine such evidence.

The Board addressed this issue in its "Issues Day - Decision and Order" dated September 26, 2007. The second paragraph under "Issue 1.1" on page 2, of that Decision and Order it is stated that:

"The Board agrees that Hydro One's reliance on the OPA is a relevant consideration, and we note that Hydro One has confirmed that witnesses from the OPA will appear at the hearing. However, the Board will not adopt the issue as proposed. Rather, the following issue will be added: Has the need for the proposed project been established? The Board finds that it is appropriate to add this direct question to the list, as suggested by PWU, as this is one of the key issues which the Board will have to address in its decision. The issue is also broad enough to ensure that Hydro One's reliance on the OPA can be explored."

It is hoped that the above quote covers your concern.

-2-

Yours truly,

Original Signed By

Kirsten Walli
Board Secretary
