Dear Ms. Walli:

VIA EMAIL

Re: Mr. Rattray's Request.

**Subject: RE: EB-2997-0050 - Hydro One Networks Inc., Bruce to Milton
Transmission Reinforcement Project**

Date: 04/03/2008 2:09:07 P.M. Eastern Standard Time

From: john.rattray@ieso.ca

It is my understanding, from The Ontario Energy Board's EB-2006-0170 Filing Requirements for Transmission and Distribution Applications and their PRACTICE DIRECTION ON CONFIDENTIAL FILINGS, that this request requires a decision of the Board. Also, this request involves the filing of agreements by the Intervenor, if the request is approved by the Board.

I submit that this involves time and, therefore, impacts upon the Interrogatory scheduling as it now stands. I believe that such matters, requiring Board Decisions, should also allow the Board to consider this and consider a reasonable extension to the Interrogatory phase. This would allow equitable and appropriate time for consideration of the informations involved.

While I did bring up the issue of confidentiality on Issues Day [Feb. 21, 08], I was remiss in not associating it with scheduling, in my submission. I apologize for this omission.

I request that the Board consider the above and reply regarding whether or not they feel that this request is appropriate and whether or not they will consider it.

Included are excerpts from the aforementioned Board documents, for

ease of consideration and review by the Intervenor and others.

**Respectfully,
Chris Aristides Pappas**
