Re: Amended "Leave to Construct" Application EB-2007-0050
(received by us on 16 January 2008)

Dear Board Members:

We (Paul John Eisenbarth, MD, and Margaret Helen [Marney] Cuff, MSW) are the owners of the above transitional-organic heritage livestock farm (and protected wetland) that would be traversed by "route refinement" alternates 1a and 2 of the Bruce to Milton transmission corridor near Hanover. Such incursion would permanently render our operation unsustainable, and for that reason we hereby apply for intervenor status in the upcoming hearings regarding this application.

As our legal costs could be considerable (including research/documentation of value of land rendered useless), we also hereby apply in advance for costs in this regard.

Please reply at your earliest convenience.

Yours truly,

P. Eisenbarth
Margaret (Marney) Cuff
