**RE: EB-2007-0050**  
**Request for Observer Status and Question**

Dear Hydro One Networks Inc./ Ontario Energy Board:

We are the owners of Part Lot <sup>15</sup>14, Con5 Township of West Grey (formerly Township of Bentinck), Ontario.

Recent application amendments indicate a proposal to construct hydro transmission lines in close proximity to our property. We would like to receive information on the public meetings planned regarding this application and on the outcomes of those meetings and of the application in general.

We have a question for Hydro One regarding the Brockton/ Hanover/ West Grey segment of the proposal. In the Hanover area, has consideration been given to placing the proposed new 550kV double-circuit conductors underground in the existing right-of-way? What arguments have been presented in favour and against this approach?

Thank you in advance for your reply,  
Yours truly,

Ian G. Sutherland, P.Eng.
