

File # EB-2007-0050

01 June 2007

Having owned property impacted by Ontario Hydro, I have concerns regarding the disruption to my farm land. This concern originates due to past experience, demonstrated by holes left, - top soil not replaced by workers representing Ontario Hydro.

I am requesting observer status and would like to reserve my right to make an oral presentation as this process progresses. Based on past experience with Ontario Hydro initial proposals have ~~not~~ frequently altered as the project progresses. Close monitoring of ongoing activities has proven necessary.
