I would like to apply for
Observer Status re - The Bruce to Milton
Transmission Application EB-2007-0050.

Alt. routes 1a + 2 would be
very close to our property & I would
like to follow the proceedings as
this would reduce our property
value, besides cutting down a lot of
good bushland. Also I have a fear
if one line goes here would another
be added 10 or 15 yrs. down the road.
The logical place to put the new line
is along the existing corridor

Thank you.
