North Bay ON P1B 8Y5

Dear Mr. Wilcox:

**Re: Application for Electricity Generation Licence
Board File No. EB-2009-0302**

On July 24, 2009, North Bay Hydro Distribution Limited applied to the Ontario Energy Board for an electricity generation licence. In your application you indicate that you intend to generate electricity for sale under the FIT Program offered by the Ontario Power Authority. As per FIT application requirement your application cannot be processed until the OPA issues a Notice to Proceed for your project.

This letter is to inform you that your application for the electricity generation licence will be closed within 10 days of the date of this letter unless the Board receives the required documentation in support of you application.

When North Bay Hydro Distribution Limited has entered into a FIT contract with the OPA and received a Notice to Proceed please file a new application along with required attachments using an application form specifically developed for the FIT generators. The form can be found on the Board's website or using the following weblink – [www.oeb.gov.on.ca/OEB/ Documents/Licences/FIT_Generator_application.pdf](http://www.oeb.gov.on.ca/OEB/Documents/Licences/FIT_Generator_application.pdf)

Please direct any questions relating to the application to Irina Kuznetsova, Advisor, Licence Applications at 416-440-8138 or e-mail, Irina.Kuznetsova@oeb.gov.on.ca.

Yours truly,
