Attention: Glen MacDonald, Senior Advisor
Regulatory Research and Administration

Dear Sir:

RE: Stephanie Kupiak
EB-2007-0050 – Hydro one Networks’ Section 92 Bruce to Milton Transmission
Reinforcement Application – Application and Evidence Filing
EB-2007-0051 – Hydro One Networks’ Section 98 Early Access application re Bruce to
Milton Transmission Reinforcement Project – Application

Please be advised that we are solicitors for Mrs. Stephanie Kupiak who has referred your letters to Dmytro Kupiak and Stephanie Kupiak of April 17, 2007 to the writer for comment.

We wish to confirm that Mr. Dmytro Kupiak died on or about June 13, 1995 and the property is now registered solely in the name of Stephanie Kupiak. Document General registering the death certificate on title was registered on November 2, 1995 as Instrument Number 845607.

Our client is objecting to the acquisition or expropriation by Hydro One of the lands referred to in your applications for the following environmental reasons:

1. The proposed tower line will destroy a mature hardwood bush along the entire width of our client’s land. There are several spring fed streams and a pond located on Mrs. Kupiak’s property. The destruction of the hardwood bush will in all likelihood dry up the streams and the pond. We shall await the further comments of the Hydro One’s assessment and report before commenting further on the environmental issues.

2. Hydro One has already expropriated part of our client's lands for the original transmission line and the additional expropriation will greatly reduce her enjoyment of the property.

We would request that Hydro One and the Ontario Energy Board keep this office informed of further developments as indicated in paragraph 2 of the Notice of Application on page 2.

Yours truly,

SOPINKA & KORT LLP

Per:

Walter J. Sopinka
