

Pollution Probe INTERROGATORY #38 List 4

Interrogatory

Ref. Exh. B/T 6/S 5 Appendix 6 is Discussion Paper 7 Integrating the Elements. On Page 39 is a bar graph of the MW of installed nuclear capacity for each year from 2007 through 2027.

Issue Number 1.0

1.0 Issue: Project Need and Justification

Request

For each year from 2007 through 2027, please provide the total nuclear capacity in MW and a breakdown of that capacity by nuclear unit, along with a description of whether such unit is considered to “existing”, “refurbished”, or “new”.

Response

The data used to create Figure 2.15 on page 39 of the referenced Discussion Paper 7 is the same data provided in the response to Pollution Probe Interrogatory 19(a) and (d), updated April 10, 2008. This material is filed in response to the Board’s Decision on April 7, 2008 concerning Generation Forecast Information.
