Dear Ms. Frank:

Re: Inconsistent Definitions of “Supporting Guarantee” in the Transmission System Code and the Utility Work Protection Code

Thank you for your letter dated February 26, 2010 indicating that inconsistent definitions of the term “Supporting Guarantee” in the Transmission System Code (“TSC”) and the Utility Work Protection Code (“UWPC”) could lead to unsafe situations. Your letter indicated that worker safety could be at risk due to possible misinterpretation of work procedures and the responsibilities of parties in regard to guaranteeing equipment isolation.

Your letter also requested that the Board review the definition of “Supporting Guarantee” in the TSC and consider amending that definition. The Board will consider the matter and advise all affected parties, if needed, of its next steps.

Yours truly,
