IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S. O. 1998, c.15, Schedule B;

AND IN THE MATTER OF an application by Talbot
Windfarm LP for a motion to review and vary the Decision
and Order EB-2009-0290, issued on October 28, 2009,
granting leave to construct an electricity transmission line
and related facilities.

PROCEDURAL ORDER NO. 1

Talbot Windfarm LP (the “Applicant” or “Talbot”) filed an application with the Ontario Energy Board (the “Board”) dated July 20, 2009, under section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B. The Applicant applied for and was granted an order for leave to construct approximately 10.3 kilometres of 230 Kilovolt (“kV”) single circuit overhead electricity transmission line (“the project”), extending from the Talbot Substation, east of Ridgetown (the “LTC Decision and Order”). The LTC Decision and Order was granted October 28, 2009, and was subject to Conditions of Approval which was attached as Appendix A. There were no intervenors in the proceeding.

On March 19, 2010, Talbot filed a Notice of Motion with the Board for an extension of the time limit for bringing the motion and for an order varying Condition 1.5 of the Conditions of Approval, which required that the Applicant file a final version of the Customer Impact Assessment (“Final CIA”) before commencing site activity for the project. The grounds for the motion are that there has been a delay in producing the Final CIA which threatens the viability of the project. Talbot asserts that no adverse effect will result from the variance requested.

The Board considers it necessary to make provision for the following items related to the Application. The Board may issue further procedural orders from time to time.
