**Re: Enbridge Gas Distribution Inc. ("Enbridge")
EB-2008-0346 Consultation on the Development of Demand Side
Management Guidelines for Natural Gas Distributors
Comments on Intervenor Cost Claims**

In accordance with the Ontario Energy Board's (the "Board") Notice of Hearing for Cost Awards dated February 18, 2010 with regards to the above noted proceeding, Enbridge Gas Distribution (the "Company") has reviewed the cost claims it has received from the Building Owners and Managers Association ("BOMA"), Canadian Manufacturers & Exporters ("CME"), Consumers Council of Canada ("CCC"), Energy Probe, Green Energy Coalition ("GEC"), Industrial Gas Users Association ("IGUA"), London Property Management Association ("LPMA"), Low Income Energy Network ("LIEN"), Pollution Probe, School Energy Coalition ("SEC"), and Vulnerable Energy Consumers Coalition ("VECC").

The Company found the cost claim of SEC to be over the Board's threshold of 30 hours for this proceeding. The Company also questions whether GEC's conversion rate of 1.2 on \$U.S. consulting invoices is appropriate.

The Company found the remainder of claims to be in accordance with the thresholds imposed for this proceeding, and to be consistent with the allowances of prescribed rates within the cost assessment guidelines, and therefore has no objection to these claims.

The Company awaits the recommendation and or cost awards of the Board with respect to these intervenor cost claims.
