Attn: Kirsten Walli, Board Secretary

Dear Ms. Walli:

Re: EB-2007-0722 – Notice of Revised Proposal to Amend Codes

We are counsel for the School Energy Coalition. On March 12, 2010 the Board gave notice of further revisions to its proposed amendments to the Distribution System Code, and sought submissions from interested parties. SEC has provided submissions on previous drafts of these changes, and the Board has taken them into account as the amendments evolved.

We have reviewed the additional revisions to the DSC in detail. Except for the limitation of the overbilling payment period to two years, on which further submissions were not requested, it appears to us that all of the substantive revisions apply only to residential customers. Therefore, while school boards are naturally concerned with policies that affect their students, it is not necessary for SEC to provide further submissions on those provisions. Other ratepayer groups will consider and comment on those changes.

All of which is respectfully submitted.

Yours very truly,
JAY SHEPHERD P.C.

Jay Shepherd
