## **RATE ORDER**

Toronto Hydro-Electric System Limited ("Toronto Hydro", or the "Applicant") filed an application, dated August 28, 2009, with the Ontario Energy Board under section 78 of the *Ontario Energy Board Act, S.O. 1998*, c.15, Schedule B, seeking approval for changes to the rates that Toronto Hydro charges for electricity distribution, to be effective May 1, 2010.

The Board issued its Decision on the application on April 9, 2010. In the Decision, the Board ordered the Applicant to file a draft Rate Order reflecting the Board's findings in the Decision. The Board approved an implementation date and an effective date of May 1, 2010.

The Applicant filed a draft Rate Order and supporting material on April 19, 2010. Intervenors filed comments on April 23, 2010 in which they stated that they accepted the draft Rate Order as filed. The Board has reviewed the information provided in support of the revised Rate Order and the proposed Tariff of Rates and Charges. The Board is satisfied that the Tariff of Rates and Charges filed accurately reflects the Board's Decision.

The Board notes that Toronto Hydro had adjusted the Board approved microFIT generator rate class fixed monthly charge of \$5.25 per month on its proposed 2010 Tariff Sheet to \$5.18 per 30 days. Toronto Hydro stated that the reason for this adjustment is that it bills fixed rates on a 30-day basis. The Board accepts this adjustment.

The Board further notes that the proposed Tariff of Rates and Charges filed by Toronto Hydro incorporated for each of the customer classes the Special Purpose Charge ("SPC") discussed in the Board's letter of April 9, 2010. The Board's letter had noted that the amount that may be collected to recover the SPC assessment is not a rate and, as such, no rate order is required and none will be issued. Accordingly, the Board has removed this charge from Toronto Hydro's approved Tariff of Rates and Charges.

## THE BOARD ORDERS THAT:

- 1. The Tariff of Rates and Charges set out in Appendix "A" of this Rate Order is approved effective May 1, 2010 for electricity consumed or estimated to have been consumed on and after such date.
- 2. The Tariff of Rates and Charges set out in Appendix "A" of this Order supersedes all previous Tariff of Rates and Charges approved by the Ontario Energy Board for the Toronto Hydro-Electric System Limited service area, and is final in all respects except for the stand by rates which remain interim.
- 3. Toronto Hydro-Electric System Limited shall notify its customers of the rate changes no later than with the first bill reflecting the new rates.

DATED at Toronto, April 29, 2010

## **RESIDENTIAL SERVICE CLASSIFICATION**

This classification refers to an account where the electricity is used exclusively in a separately metered living accommodation. Customers shall be residing in single-dwelling units that consist of a detached house or one unit of a semi-detached, duplex, triplex or quadruplex house, with a residential zoning. Separately metered dwellings within a town house complex or apartment building also qualify as residential customers. Bulk metered residential buildings with up to six units also qualify as residential customers. Further servicing details are available in the distributor's Conditions of Service.

### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy and Infrastructure Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

EB-2009-0139

## LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

## Billing Determinant:

The billing determinant is the customer's metered energy consumption adjusted by the Total Loss Factor as approved by the Board and set out in this Schedule of Rates.
