Dear Ms. Walli:

**Re: EB-2007-0691**

**Kruger Energy Inc. – Notice of Proposal Under Section 81 of the *Ontario Energy Board Act, 1998***

Chatham-Kent Hydro (CK H) would like to be an intervenor in the above noted application that is before the Ontario Energy Board (Board). CK H is the distributor in the Bloomfield Business Park and numerous other areas in the Municipality of Chatham-Kent.

CK H's concern is whether this new substation will impact the capacity at the Kent Transformer Station, power quality, and reliability of the 230,000 volt system which could affect the customers of CK H. The concerns listed are not the extent to the possible impacts to our customers and is why CK H would like to intervene in this process.
