**NOTICE OF APPLICATION AND HEARING FOR AN
ELECTRICITY DISTRIBUTION RATE CHANGE
Hearst Power Distribution Company Limited**

Hearst Power Distribution Company Limited (“Hearst Power”) filed a cost of service application with the Ontario Energy Board (the “Board”) on April 28, 2010, (amended on May 21, 2010) under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B), seeking approval for changes to the rates that Hearst Power charges for electricity distribution, to be effective May 1, 2010. The Board has assigned the application File No. EB-2009-0266. The Board’s decision on this application may have an effect on all of Hearst Power’s customers.

Any change to Hearst Power’s distribution rates will cause Hearst Power’s delivery charges to change. Delivery charges are one of four regular items on residential and general service customers’ electric bills and vary depending on the amount of electricity consumed.

Hearst Power indicates that if the application is approved as filed, Residential customers consuming 800 kWh per month would experience an increase of approximately 20.8% in their current delivery charges. This is a \$3.66 per month increase on their total bill. General Service customers consuming 2,000 kWh per month and having a monthly demand of less than 50 kW would experience an increase of approximately 7.7% in their current delivery charges. This is a \$2.03 per month increase on their total bill. This change to the delivery component of the bill is separate from other potential changes to electricity bills, which could include changes to the “electricity” component charges, changes to transmission charges and changes to other charges included on the bill. This application deals only with the potential change in the delivery component of the bill that may result from changes in the delivery rates.
