Dear Ms. Walli:

Re: Hydro One Networks Inc.
Change to Electricity Transmission Revenue Requirement and Rates
Request for Intervenor Status
Board File No. EB-2010-0002

I am writing pursuant to the Board's Notice of Application and Hearing for the above application dated June 7, 2010 to respectfully request that the Board grant AMPCO intervenor status in this application.

I. AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent a cross-section of Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO, and its member companies, are well known to the Board. AMPCO actively participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board (OEB) in which matters of relevance to Ontario's large electricity consumers are being addressed. AMPCO works as far as possible with other industry and consumer interest organizations, both outside and within OEB proceedings.

AMPCO's interest in the present application relates to matters that pertain generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service and specifically to the applicant's proposed changes to the provincial uniform transmission rates to be effective January 1, 2011 and January 1, 2012. Any decision and order of the Board pertaining to this application will directly impact AMPCO members. It is AMPCO's intention to be an active intervenor in this proceeding.

II. Costs

I respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor status and cost award eligibility in other OEB proceedings including previous Hydro One Distribution and Transmission Rate applications.
