

EB-2006-0019

IN THE MATTER OF the *Ontario Energy Board Act*,
1998, S.O. 1998, c. 15, Schedule B;

AND IN THE MATTER OF an application by CM
Greenfield Power Corp. on behalf of Greenfield
Energy Centre L.P. for an electricity generation
licence.

By delegation, before: Mark C. Garner

DECISION AND ORDER

CM Greenfield Power Corp. on behalf of Greenfield Energy Centre L.P. (the "Applicant") filed an application dated January 31, 2006 with the Ontario Energy Board (the "Board") under section 60 of the *Ontario Energy Board Act, 1998* (the "Act") for an electricity generation licence.

The Board's Notice of Application and Written Hearing in this matter was published on February 3, 2006. On February 6, 2006, Union Gas Limited requested observer status in response to the Notice of Application and Written Hearing and the Board granted this request.

Greenfield Energy Centre Limited Partnership ("GEC") is a limited partnership between a Canadian subsidiary of Calpine Corporation ("Calpine") of the U.S. and a Canadian Subsidiary of Mitsui & Co. Ltd. of Japan.

In its review of an associated application, the Board granted GEC leave to construct a natural gas pipeline to supply gas to the subject generation facility (Board Decision RP-2005-0022/EB-2005-0441/EB-2005-0442/EB-2005-0443).

The Board, aware that Calpine had filed for bankruptcy protection, attached as a condition of approval, that GEC provide information in respect to changes in the roles of its partners or the addition of new participants that would bear responsibility for the construction or operation of the pipeline serving the generation facility that is the subject of this licence application.

In keeping with the Board's decision, the Applicant's licence includes a requirement that the Applicant inform the Board of material changes in circumstances that relate to the construction and ongoing operation of the pipeline constructed to serve the generation facility listed in Schedule 1 of the Applicant's licence.

IT IS THEREFORE ORDERED THAT:

1. The application for an electricity generation licence is granted, on such conditions as are contained in the attached licence.
2. The Applicant shall inform the Board of any change which might materially affect the operation or ownership of the natural gas pipeline which is used for the purpose of serving the generation facility listed in Schedule 1 of the attached licence and which is currently owned and operated by the Applicant.
3. Such information shall be filed as soon as practicable, but in any event, not more than twenty days following the date on which such change or sale occurs.

Under section 7(1) of the *Ontario Energy Board Act, 1998*, this decision may be appealed to the Board within 15 days.

DATED at Toronto, June 23, 2006.

ONTARIO ENERGY BOARD

Mark C. Garner
Managing Director, Market Operations
