Dear Ms. Walli:

**Re: Enbridge Gas Distribution Inc. – 2010 DSM Input Assumptions Update
Reply Submission
Board File No.: EB-2010-0202**

On June 8, 2010 the Ontario Energy Board (the "Board") released the Notice of Application and Procedural Order No.1 regarding Enbridge's 2010 DSM Input Assumptions Update Application. Interested Parties wishing to comment on the Application were asked to submit written comments by June 22, 2010. Enbridge received submissions from Green Energy Coalition ("GEC"), Board Staff, Low-Income Energy Network, Canadian Manufactures & Exporters, and Energy Probe.

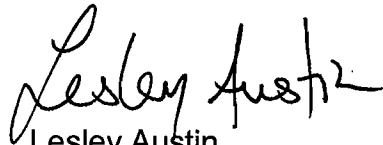

Of the written comments received, GEC did raise concern regarding an oversight to the measure life of Steam Traps. This concern was resolved on June 25, 2010 with Enbridge filing an update to both this Application and the 2011 DSM Plan Application (EB-2010-0175). On June 28, 2010 GEC acknowledged the amendment and offered support of Enbridge's 2010 DSM Input Assumptions Update as amended.

In Enbridge's review of the additional written comments no further concerns were raised. Enbridge is satisfied that all parties are in favour of the evidence as it now stands and as such Enbridge will not be filing a reply submission. Enbridge asks that the Board approve the amended Application at the Board's earliest convenience in order for Enbridge to implement these changes in the 2010 DSM program delivery.
