Toronto ON M4P 1E4

Dear Ms Walli:

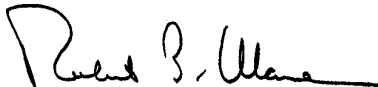

Re: EB-2010-0008/Confidentiality

We are counsel to the Consumers Council of Canada in this matter.

We have had an opportunity to review, though not in detail, the tax information, business plan, and business case summaries in respect of which Ontario Power Generation Inc. ("OPG") requests confidential treatment. At this point, we have no objection to OPG's request. However, depending on the information elicited, in interrogatories and in cross-examination, we may request that portions of that information be placed on the public record. If we are to make such a request, we will provide notice to OPG before doing so.

Yours very truly,

WeirFoulds LLP

Robert B. Warren
