Dear Ms. Walli:

**Re: Pollution Probe – Submissions for Motion on “High 5 Proposal”
EB-2010-0002 – Hydro One – 2011/12 Transmission Rates**

Pursuant to *Procedural Order No. 1*, we write to provide Pollution Probe’s submissions for Hydro One’s motion regarding the “High 5 Proposal”.

Pollution Probe takes no position on whether the “High 5 Proposal” should be severed and dealt with separately (either as part of a generic proceeding or as a separate part of this proceeding). However, regardless of how the Board decides to proceed, Pollution Probe submits that the Board should deal with the “High 5 Proposal” in a timely manner so that any potential implementation is not delayed, particularly in light of the Board’s previous decision and comments regarding the “High 5 Proposal”.

Pollution Probe also submits that, if the Board decides to proceed with some form of an oral hearing for the “High 5 Proposal”, Pollution Probe should continue to retain its right to conduct cross-examination if Pollution Probe considers it appropriate.

We trust that these submissions are of assistance. In light of these submissions, counsel for Pollution Probe does not intend to appear at the oral hearing for this motion, and please do not hesitate to contact the undersigned if you wish to discuss this matter further.

Yours truly,

Basil Alexander
