Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

RE: Northern Ontario Wires Inc. - Board File Number EB-2007-0853
& Ontario Uniform Transmission Rate Order EB-2007-0759

In accordance with instructions released October 29, 2007, Northern Ontario Wires Inc. (NOW) has reviewed their Retail Transmission Rates and requests a reduction to these rates commencing May 1, 2008 as follows:

Retail Transmission Rates	Customer Service Type	Unit	Current Rate	Proposed Rate	% Rate Reduction
Network Service Rate	Residential GS<50 KW	KWH	\$0.0054	\$0.0044	(18.4%)
	GS>50 KW to 4,999	KWH	\$0.0049	\$0.0040	(18.4%)
	Unetered Scattered Load	KW	\$2.0129	\$1.6430	(18.4%)
	Street Lighting	KW	\$0.0049	\$0.0040	(18.4%)
	Street Lighting	KW	\$1.5181	\$1.2392	(18.4%)
Line and Transformation Connection Service Rate	Residential GS<50 KW	KWH	\$0.0044	\$0.0021	(52.0%)
	GS>50 KW to 4,999	KWH	\$0.0040	\$0.0019	(52.0%)
	Unmetered Scattered Load	KW	\$1.5764	\$0.7570	(52.0%)
	Street Lighting	KW	\$0.0040	\$0.0038	(5.2%)
	Street Lighting	KW	\$1.2187	\$0.5853	(52.0%)

The reduction proposed for Network Service Rates is consistent with the reduction in wholesale transmission rates.

Cont p.2

The reduction proposed for Line and Transformation Connection Service Rates has two components. The first being a reduction consistent with the reduction in wholesale transmission rates. The second being a reduction to disposed of a significant variance in Northern Ontario Wires Inc.'s Retail Transmission Connection Charge Variance account 1586. The balance of the variance being disposed of is as follows:

Principal Balance as of Dec 31/06	(\$964,514)
Accumulated Interest as of Dec 31/06	<u>(112,652)</u>
TOTAL	(\$1,077,166)

Proposed Repayment Period	4 years
Annual Repayment with Rate Reduction	\$269,292

This rate rider has been calculated using a 4 (four) year repayment period since the balance in this account has been accumulating since 2002. The balance of this account as reported for regulatory asset recovery purposes in our 2006 Application was erroneously under reported. Accordingly the balance in this account still remains in a significant credit position.

The details of the rate reductions related to the wholesale transmission rate reduction and the disposal of variance account 1586 are included in the attached documentation.

We have not requested disposal of our Network Account 1584 since the balance in this account is not significant. Accordingly it will be disposed of through the next regulatory asset recovery mechanism along with all other regulatory assets and liabilities.

This application is respectfully submitted for the Board's consideration.

Yours truly,

Monika Malherbe, CA
Chief Financial Officer
Northern Ontario Wires Inc.

**Retail Transmission Rate Adjustment
