Dear Ms. Walli:

**Re: EB-2010-0008 - Ontario Power Generation Inc. Confidential Information
- Nuclear Operations Business Plan**

The Ontario Energy Board's ("OEB") Procedural Order No. 3, requires that the Canadian Electricity Association data which OPG had redacted from OPG's confidential version of the Nuclear Operations 2010-2014 Business Plan at Exhibit F2-1-1, Attachment 1, filed on July 2, 2010 no longer be redacted. This information will, however, still be treated as confidential under the OEB's practices.

The redacted information in the 2010-2014 Nuclear Operations Business Plan was two entries on page 6 of the document that relate to the best quartile and median results for the All Injury Rate (AIR) performance metric. In accordance with Procedural Order No. 3, Exhibit F2-1-1, Attachment 1 with no redactions is re-filed in confidence as "Attachment 1" to this letter under the OEB's *Practice Direction on Confidential Filings*.

In Procedural Order No. 3, the OEB also requires that OPG file a fully unredacted version of the Hydroelectric 2010 -2014 Business Plan at Exhibit F1-1-1, Attachment 1, so that the OEB may review it to determine whether the redactions related to OPG's unregulated hydroelectric business are appropriate. The OEB has stated that this document will not be made available to the parties. As a result, the Hydroelectric Business Plan will be filed confidentially with the OEB only, under separate cover letter.

Yours truly,

Barbara Reuber
