Subject: EB-2010-0199

In accordance with the Board's original letter of July 13/2010 in this matter we wish to confirm that the City of Timmins has delivered today two copies of its letter of request for participation and costs in this matter.

Please note that the copies which were delivered contain minor typographical corrections. There are no substantive changes from the letter originally submitted. We would request that the cleaned up version be the one use for the Board's records. We have sent copies of the "cleaned up" copy to the regulated gas distrub
