Toronto, ON M4P 1E4

Dear Ms. Walli:

**Re: Cost Allocation Study related to Suite Metering  
OEB Direction in EB-2009-0139**

On page 29 of its Decision dated April 9, 2010 the OEB directed THESL to file, as part of its next cost of service application but in any event, no later than six months from April 9, 2010, a cost allocation study related to THESL's provision of suite metering services.

THESL has recently completed an RFP for the provision of services to develop a cost allocation study related to suite metering in its service territory. The study is expected to be completed by the end of December 2010. THESL requests an extension to the filing deadline and proposes to file the study in early 2011.

Yours truly,
