Dear Cherie Brant:

**Re: Union Gas Limited – 2011 DSM Plan**  
**Board File No. EB-2010-0055**  
**Notice of Intervention of Ontario Sustainable Energy Association**

The Board confirms Ontario Sustainable Energy Association ("OSEA") as an intervenor in the above noted proceeding, subject to Union Gas Limited's right of reply to this request within **seven (7) days** of the mailing of this letter. The Board notes that OSEA's members include generators, a group that is specifically excluded from cost award eligibility, except in special circumstances. OSEA has not demonstrated that an exception to the Board's cost award eligibility criteria should be made in this case. OSEA does not represent the direct interests of consumers and does not primarily represent a public interest issue with respect to issues in this case. The Board therefore does not find OSEA to be eligible for cost awards. As a late intervenor in this proceeding, OSEA will be required to accept the current record as it stands.

Yours truly,
