Dear Ms. Walli:

**RE: INTERVENOR REQUEST BY ALGOMA COALITION
BOARD FILE EB-2009-0278 ALGOMA POWER INC.**

In respect of the intervenor request by Algoma Coalition, this letter confirms that Algoma Power Inc. ("API") does not have an objection to the request. However, for the record, API does request that the Ontario Energy Board (the "Board") ask the Algoma Coalition for a list of its membership. As API values its relationship to all communities served by the utility, it is important to understand which municipalities will be participating in the application in order to effectively communicate during the proceeding and in the future.

Yours truly,

R. Scott Hawkes

Vice-President, Corporate Services and General Counsel
Algoma Power Inc.
