Dear Ms. Walli:

Re: Norfolk Power Distribution Inc – Cost of Service Application EB-2010-0139

On February 19 2010, Norfolk Power Distribution Inc (NPDI) informed the Ontario Energy Board of its intent to file a Cost of Service rate application in August 2010, for new rates effective May 1st 2011. On May 31st NPDI confirmed its intention to file the application.

NPDI now regrets to inform the Board that it will be delayed in filing its application.

NPDI continues to work diligently on the application and intends to file no later than October 29 2010. NPDI apologizes for any inconvenience that arises from the late filing and understands that this delay may impact the effective date of the new rates applied for.

If any further information is required please feel free to contact me at any time.
