Dear Ms. Walli:

Re: Initiative to Develop Electricity Distribution System Reliability Standards
Board File #: EB-2010-0249

In response to the Board's letter dated August 23, 2010, PowerStream wishes to advise the Board of their interest in participating in the above noted initiative.

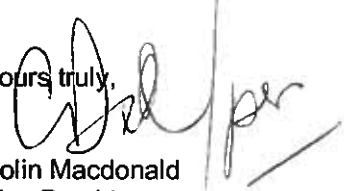

PowerStream feels very strongly that distributors need to participate in any discussion on the issues that are considered important to distributors and end use customers regarding the implementation of distribution system reliability performance standards for Ontario's regulated electricity distributors.

PowerStream plans to attend the stakeholder conference on October 15, 2010 (2 people), and will provide written comments on the conference issue's list if possible, prior to the stakeholder conference. PowerStream is providing information to the list of questions listed on Attachment A, with the August 23, 2010 communication, by September 17, 2010.

PowerStream requests that any documentation be directed to:
