Ms. Kirsten Walli
Board Secretary
Ontario Energy Board

Toronto, ON M4P 1E4

Dear Ms. Walli:

Re: EB-2010-0142 Toronto Hydro-Electric Systems Limited – Cost of Service Application

PowerStream Inc. is applying for intervention status in the above-noted proceeding.

PowerStream Inc. has a vested interest in observing the cost of service applications being presented to the Board. As all LDCs in the province will be before the Board in due course, it is important to the company and to our customers that we participate in these hearings.

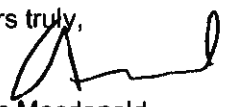

PowerStream is not eligible for and does not seek an award of costs as per the Board's Cost Award Guidelines. PowerStream does not object to the Board proceeding with a written hearing as outlined in the Notice of Application and Hearing.

In an attempt to reduce the amount of paper printed, PowerStream requests to only receive electronic copies of the materials filed by the applicant and subsequent intervenors.

PowerStream requests that documents filed with the Board in the proceeding be served as follows:
