Toronto, ON M4P 1E4

Dear Ms. Walli:

Re: Enbridge 2011 Rate Adjustment;
Board File Number EB-2010-0146

Enbridge Gas Distribution Inc. filed an Application dated September 1, 2010 commencing a proceeding to determine its 2011 distribution rates. ECNG Energy L.P. ("ECNG") wishes to confirm its interest in participating as an intervenor in this proceeding.

ECNG is a regular intervenor in Enbridge rates proceedings. The evolution of the electricity and natural gas markets in Ontario is of vital interest to ECNG and its clients - industrial, commercial and institutional corporations with over 10,000 end-use meter locations in Ontario, the majority in the Enbridge territory. Each of these consumers has access to reasonably-priced natural gas distribution services today. Any potential changes to these services and rates will have a significant impact on these corporations at their thousands of end-use locations.

We wish to receive all documents issued by all participants in this matter. Electronic delivery is acceptable.

A thorough review of Enbridge's Evidence is necessary before we can determine our level of participation, particularly if the scope of the proceeding extends beyond a simple arithmetic adjustment to Enbridge rates as per the approved incentive rate mechanism.

ECNG will not be seeking costs in this proceeding.
