Ms. Kirsten Walli  
Ontario Energy Board  
2300 Yonge Street  
Suite 2700  
Toronto, Ontario M4P 1E4

Dear Ms. Walli:

**Re: Board File EB-2010-0199 / 2010 Natural Gas Review**

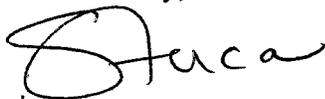

Further to our correspondence of September 3, 2010, this is to advise that we have retained Ms. Lisa Sumi to provide expert evidence on the potential impact of regulatory reform on the cost and availability of shale gas supplies to Ontario. We expect to file an overview of the report she has prepared with the Board later today. Further to my conversation with Board staff last week, her overheads will be provided later this week.

Ms. Sumi is also planning to attend the stakeholder conference scheduled for October 7 and 8 for the purpose of making a presentation. I will be attending with her, as will Ms. Andrea Harden who is the energy campaigner with the Council of Canadians.

Ms. Sumi is based in Durango, Colorado, and is an environmental research consultant, specializing in the production of technical research and analysis related to oil and gas, tar sands, gas shale and coal. Her clients include Earthworks, Miningwatch Canada, Forestethics, Massachusetts Institute of Technology, and the Natural Resources Defense Council.

Ms. Sumi holds a Master Of Science Degree – Physical Geography (Soils), University of Toronto (1997), and a Bachelor Of Science Degree – Double Major in Environmental Science and Physical Geography, also from the University of Toronto (1995).

Yours truly,

for Steven Shrybman
