File 10606.00052

Kirsten Walli
Board Secretary
Ontario Energy Board
Suite 2701
2300 Yonge Street
Toronto ON M4P 1E4

Dear Ms Walli:

Re: EB-2010-0002 - Hydro One Transmission 2011- 2012

We are counsel to the Consumers Council of Canada ("CCC").

We have received a copy of Mr. Shepherd's letter to you dated October 24, 2010 in which he requests an extension of time for filing his client's final Argument in EB-2010-0002. We write to express our agreement with Mr. Shepherd's comments, and to as well request an extension of time for the filing of our client's Final Argument.

As the Board is aware, the CCC is an active party in the Board's oral hearing of OPG's application EB-2010-0008. Preparation of our client's Final Argument in EB-2010-0002, which, as the issues are complex and important to our client, requires substantial time to finalize, is due on Thursday of this week. As a result, we are finding it very difficult to adequately deal with both the oral hearings and the completion of the Final Argument at the same time.

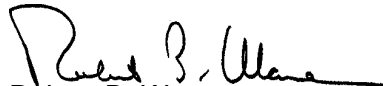

The evidentiary phase of the OPG hearing is likely to end this week, allowing the writer to devote his attention fully to the preparation of the Final Argument.

We therefore respectfully request an extension of time, to Tuesday, November 2, 2010, for filing our client's Final Argument in EB-2010-0002.

Your consideration in the matter is appreciated

Yours very truly,

WeirFoulds LLP

Robert B. Warren
