Ms. Anne-Marie Reilly
Regulatory Coordinator
Hydro One Networks Inc.
8th Floor, South Tower
483 Bay Street
Toronto ON M5G 2P5

Dear Ms. Reilly

**Re: Hydro One Networks Inc.
Leave to Construct the Bruce - Milton Transmission Line
Board File No. EB-2007-0050**

I would like to thank you for your letter of October 6, 2010, with regard to the recent allegation of Hydro One's violation of the Conditions of Board Order EB-2007-0050 which updated the Board on the status of the Bruce-to-Milton project and your related construction activities.

So that the Board may be kept aware of Hydro One's progress on this project along with your construction activities and the acquisition of the necessary approvals, we are requesting that you provide the Board with a quarterly update in this regard. The Board is seeking a tabulated list that includes all of the land parcels along the proposed route, the land rights sought for each location, the permits/approvals required for all parcels, the permits/approvals currently in Hydro One's possession and the anticipated timeline for obtaining any outstanding permits/approvals.

- 2 -

Please provide the undersigned with the above noted information by Monday November 19, 2010.

Yours truly,
