**Re Milton Hydro Distribution Inc., Distribution Licence ED-2003-0014  
2011 Electricity Distribution Cost of Service Rate Application  
EB-2010-0137  
Request for Extension of Filing Date for Interrogatory Responses**

Milton Hydro Distribution Inc. ("Milton Hydro") is in the process of preparing its Interrogatory responses to intervenors of record being Ontario Energy Board Staff, Energy Probe, the Vulnerable Energy Consumers Coalition ("VECC") and the School Energy Coalition ("SEC").

Milton Hydro received 285 questions and part questions on November 2, 2010 and is required to respond to the interrogatories by November 16, 2010, 14 days after receipt thereof, in accordance with Procedural Order No. 1. The interrogatories themselves require Milton Hydro to re-run in excess of 15 multiple variations of its load forecast and regression model, revenue requirement model and rate design model in addition to the tables and narratives necessary to support Milton Hydro's interrogatory responses.

Milton Hydro has been working diligently on its interrogatory responses, however due to the short time line for response and the number and the complication of re-running models Milton Hydro may not be in a position to file complete and comprehensive responses by November 16, 2010.

Milton Hydro would respectfully request an extension of one week to complete and file its interrogatory responses to all intervenors on or before November 23, 2010. This extension would provide Milton Hydro three weeks to respond to its interrogatories in common with procedural orders issued to other distributors.
