Attn: Kirsten Walli, Board Secretary

Dear Ms. Walli:

Re: EB-2010-0137 – Milton Hydro- Applicant's Request for Extension to File Interrogatory Responses

The School Energy Coalition (SEC) has reviewed the letter by Milton Hydro dated November 12th requesting a one week extension to file interrogatory responses. SEC does not oppose the request by Milton Hydro and is in agreement with the correspondence by Energy Probe in respect to most of their suggested rescheduled dates. For the Settlement Conference, to avoid as much as possible double booking with the HONI Brampton (EB-2010-0312) Oral Hearing, SEC recommends that the Board consider holding the Settlement Conference on the 8th and if needed the 9th as the Board does not sit on Wednesdays.

SEC requests the Board take into consideration when rescheduling, with the view of not having Milton Hydro's Technical or Settlement Conference occurring simultaneously not only the Oral Hearing of HONI Brampton (EB-2010-0312) but also the Oral Hearing for Whitby Hydro (EB-2009-0274) and with the Kingston Hydro (EB-2010-0136) Settlement Conference.

Should you require any additional information, please do not hesitate to contact me.
