NOTICE OF APPLICATION AND HEARING

**HYDRO ONE BRAMPTON NETWORKS INC.
and HYDRO ONE NETWORKS INC.**

**2011-2014 BOARD-APPROVED
CONSERVATION AND DEMAND MANAGEMENT PROGRAMS**

Hydro One Brampton Networks Inc. ("Hydro One Brampton") and Hydro One Networks Inc. ("Hydro One") have each filed an application with the Ontario Energy Board (the "Board"), dated November 1, 2010 seeking an order granting approval of funding for six individual conservation and demand management ("CDM") programs.

The Board has assigned file number EB-2010-0331 to the Hydro One Brampton application and file number EB-2010-0332 to the Hydro One application.

The application has been filed pursuant to the Board's CDM Code that was issued on September 16, 2010. The CDM Code was developed by the Board in response to a Directive from the Minister of Energy dated March 31, 2010.

Both Hydro One Brampton and Hydro One have filed for approval of the same suite of CDM programs. The programs for which they are seeking approval are: Community Education, Neighbourhood Benchmarking, Monitoring and Targeting, Small Commercial Energy Management and Load Control, Municipal and Hospital Energy Efficiency Performance, and Double Return Plus. Hydro One Brampton seeks approval for a total of \$7.9 million and Hydro One seeks approval for a total of \$32.0 million. Both Hydro One Brampton and Hydro One also seek approval of a variance account to record the difference between the funding awarded for Board-Approved CDM Programs and the actual spending incurred to carry out the programs. If approved, the CDM programs will be funded by all provincial ratepayers through the Global Adjustment Mechanism, which is a part of the "commodity" line item on a standard residential bill.

How to see Hydro One Brampton Network Inc.'s and Hydro One Network Inc.'s Applications and Pre-filed Evidence

Copies of the applications and the pre-filed evidence in support of the application will be available for public inspection at the Board's offices and at both Hydro One Brampton Network Inc.'s and Hydro One Network Inc.'s head offices.

Hearing

Pursuant to its powers under section 21(5) of the *Ontario Energy Board Act, 1998*, the Board will combine these hearings. The Board has not determined whether it will hold an oral or written hearing for this application and welcomes parties to include their recommendation for the type of hearing the Board should hold when filing for participant status. Any submissions recommending the type of hearing the Board should hold in this matter must be received by the Board and copied to the applicant within **10 days** of the publication or service date of this notice.

How to Participate

If you would like to participate in this proceeding, please specify the applications' Board File No. EB-2010-0331 and EB-2010-0332.

You may participate in this proceeding in one of three ways:

1. Become an Intervenor

Intervenors participate actively in the proceeding (i.e., submit written questions, evidence, and arguments, and cross-examine witnesses at an oral hearing).

A request for intervenor status must be made by letter of intervention and be received by the Board no later than **10 days** from the publication or service date of this notice. A letter of intervention must include: (a) a description of how you are, or may be, affected by the outcome of this proceeding; (b) if you represent a group, a description of the group and its membership; and (c) whether you intend to seek an award of costs and the grounds for your cost award eligibility.

You must provide a copy of your letter of intervention to the applicant.

Everything an intervenor files with the Board, including the intervenor's name and contact information, will be placed on the public record, which means that all filings will be available for viewing at the Board's offices and will be placed on the Board's website.

If you already have a user ID, please submit your intervention request through the Board's web portal at www.errr.oeb.gov.on.ca. Additionally, two paper copies must be submitted to the address set out below.

If you do not have a user ID, visit the Board's website under e-Filing Services and complete a user ID/password request form. For instructions on how to submit documents and naming conventions please refer to the RESS Document Guidelines found at www.oeb.gov.on.ca/OEB/Industry, e-Filing Services.

The Board also accepts interventions by e-mail, at the address below, and again, two additional paper copies are required. Those who do not have internet access are required to submit their intervention request on a CD in PDF format, along with two paper copies.

2. Send a Letter with your Comments to the Board

If you wish to comment on the proceeding without becoming an intervenor, you may submit a letter of comment to the Board Secretary.

All letters of comment sent to the Board will be placed on the public record, which means that the letters will be available for viewing at the Board's offices and will be placed on the Board's website.

Before placing the letter of comment on the public record, the Board will remove any personal (i.e., not business) contact information from the letter of comment (i.e., the address, fax number, phone number, and e-mail address of the individual). However, the name of the individual and the content of the letter of comment will become part of the public record.

A complete copy of your letter of comment, including your name, contact information, and the content of the letter, will be provided to the applicant and the Hearing Panel.

Your letter of comment must be received by the Board no later than **30 days** from the publication or service date of this notice. The Board accepts letters of comment by either post or e-mail at the addresses below.

3. Become an Observer

Observers do not participate actively in the proceeding but receive documents issued by the Board in the proceeding. There is no fee for observers to receive documents issued by the Board.

A request for observer status must be made in writing and be received by the Board no later than **10 days** from the publication or service date of this notice. The Board accepts observer request letters by either post or e-mail at the addresses below.

All letters requesting observer status will become part of the public record, which means that the letters will be available for viewing at the Board's offices and will be placed on the Board's website.

Before placing the request for observer status on the public record, the Board will remove any personal (i.e., not business) contact information from the request (i.e., the address, fax number, phone number, and e-mail address of the individual). However, the name of the individual and the content of the request for observer status will become part of the public record.

Observers may also request documents filed by the applicant and other parties to the proceeding but must request these documents directly from the relevant party. Observers may be required to pay for the costs of reproducing and delivering the material.

Most documents filed in this application will also be available on the Board's website.

**Avis de requête et d'audience
d'Hydro One Brampton Networks inc. et d'Hydro One Networks inc.
concernant ses programmes de conservation
et de gestion de la demande 2011-2014 approuvés par la Commission**

Hydro One Brampton Networks inc. (« Hydro One Brampton ») et Hydro One Networks inc. (« Hydro One ») ont déposé une requête auprès de la Commission de l'énergie de l'Ontario (la « Commission ») le 1^{er} novembre 2010 en vue d'obtenir une ordonnance approuvant le financement de six programmes individuels de conservation et de gestion de la demande (« CGD »).

La Commission a assigné à la requête d'Hydro One Brampton le numéro EB-2010-0331 et à la requête d'Hydro One le numéro EB-2010-0332.

La requête a été déposée en vertu du code de CGD de la Commission publié le 16 septembre 2010. Le code de CGD a été élaboré par la Commission à la suite de la directive du ministre de l'Énergie du 31 mars 2010.

Hydro One Brampton et Hydro One ont déposé une requête pour l'approbation de la même gamme de programmes de CGD. Les programmes pour lesquels ils demandent une approbation sont les suivants : sensibilisation de la communauté, étalonnage, suivi et ciblage de quartier; gestion des petits consommateurs d'énergie commerciale et contrôle de charge; efficacité énergétique des municipalités et des hôpitaux; double avantage plus. Hydro One Brampton demande une approbation de programmes s'élevant à 7,9 millions de dollars et Hydro One demande une approbation de programmes s'élevant à 32 millions de dollars. Hydro One Brampton ainsi qu'Hydro One demandent également l'approbation d'un compte d'écart afin de comptabiliser la différence entre le financement accordé pour les programmes de CGD approuvés par la Commission et les dépenses réelles encourues pour la mise en œuvre de ces programmes. Si approuvés, les programmes de CGD seront financés par les abonnés

de la province grâce au mécanisme de rajustement global, qui fait partie de la ligne « service » de la facture résidentielle régulière.

Comment consulter les requêtes et les documents présentés par Hydro One Brampton Networks inc. et Hydro One Networks inc.

Des exemplaires de la requête et des documents à l'appui présentés à l'avance sont disponibles pour consultation dans les bureaux de la Commission, ainsi qu'aux bureaux d'Hydro One Brampton Networks inc. et d'Hydro One Networks inc.
