2300 Yonge Street
Toronto, ON M4P 1E4

Dear Ms. Walli:

**Re: Toronto Hydro-Electric System Limited 2011 Cost of Service Application
Board File No. EB-2010-0142
Interrogatories from the Smart Sub-Metering Working Group**

We represent the Smart Sub-Metering Working Group ("SSMWG").

Pursuant to Procedural Order No. 1, we write with the SSMWG's interrogatories to Toronto Hydro-Electric System Limited ("THESL").

We note that THESL has not yet served its Cost Allocation Study ("Study") related to its provision of suite metering services. THESL is required to serve the Study by December 1, 2010. The SSMWG anticipates that it will have questions that will arise upon receipt of the Study in respect of its findings and implications. Obviously, it is not possible to anticipate these questions prior to receiving the Study.

Given these circumstances, the SSMWG requests that it be provided with the opportunity to ask further interrogatories of THESL after the Study is provided. Given that the SSMWG's expert will need some time to review the Study, the SSMWG requests that it be provided with several weeks to prepare the further interrogatories. Alternately, the SSMWG would be open to asking its further questions through a Technical Conference.

Please contact us should you have any questions.

Yours truly,

AIRD & BERLIS LLP
