Kirsten Walli,
Board Secretary
Ontario Energy Board
Suite 2701
2300 Yonge Street
Toronto ON M4P 1E4

Dear Ms Walli:

**Re: EB-2010-0331 and EB-2010-0332/Hydro One Networks Inc. and Hydro One
Brampton Networks Inc./Applications for Approval of Funding for CDM Programs**

We are counsel to the Consumers Council of Canada (the "CCC").

The CCC was a participant in the Board's consultation on the creation of the CDM Code for Electricity Distributors. We have been instructed by our client to advise you that it wishes to participate in these proceedings.

The CCC is a non-profit, public interest organization, which represents the interests of the broad array of residential consumers of electricity in Ontario. The granting of the applications will have an impact on the rates paid by those residential consumers. It is essential that residential consumers are represented and protected in these applications for approval of funding for CDM programs.

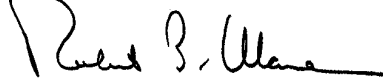

Because these are the first applications to be considered under the CDM Code, the CCC recommends that the Board hold oral hearings of the applications.

The CCC will be seeking an award of costs for its participation in this proceeding. Our client has no funds to support its intervention in these proceedings. In the absence of a cost award, our client would not be able to participate and assist the Board in the proceedings.

The representatives of the CCC are the writer, and Julie Girvan, the CCC's consultant. Ms Girvan's contact information is: 62 Hillside Avenue East Toronto, ON, M4S 1T5, telephone: (416) 322-7936, fax: (416) 322-9703, e-mail: jgirvan@ca.inter.net.

Yours very truly,

WeirFoulds LLP
