Board Secretary
Ontario Energy Board
27th Floor, 2300 Yonge St.
Toronto, Ont. M4P 1E4

Dear Board Secretary: File No. EB2010-0137 Milton Hydro Distribution Inc.
Request for Delivery Charge Increase

Again, I am requesting the above matter, before the Board, be suspended pending clarification and evidence that the Board has followed legislation and rules as set out in the Ontario Energy Board Act, 1998 and the Statutory Powers Procedure Act, as well as clarification of contradictory statements made by the Ontario Energy Board.

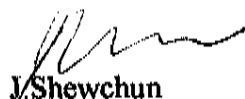

In the Board's November 19, 2010 letter, the statement is made, "no decision has yet been made as to whether the Board will hold a written or oral hearing..." This contradicts the published notice in the Sept 23rd, 2010 issue of the Milton Champion where the statement reads: "The Board intends to proceed with this application by way of a written hearing..." Clearly the decision has been made by the Board as to the process which will be followed in these hearings. I would ask for an explanation for this apparent contradiction.

Further, I would like the Board to present some evidence that the Milton Champion, in which the notice for delivery charge increase was published on Sept. 23rd, 2010 is the highest paid circulation in the Milton Hydro Distribution Inc.'s service area.

Legislation requires adequate notice of hearing. There is nothing adequate with a one time notice published in a local paper, and then giving only 10 days for the public to respond. Anyone who does not respond within 10 days is restricted from actively participating.

The technical conference which has been scheduled on December 3, 2010 in Toronto cannot be considered fair nor a public process. This technical conference should be held in the community which is affected by the proposed increase. This would at least allow the public to attend.

Yours truly

J. Shewchun
