Dear Ms. Walli:

Re: Comments on Issues List - EB-2010-0279

Dear Ms. Walli,

I am counsel to the Canadian Energy Efficiency Alliance ("the Alliance"), an intervenor in this proceeding.

The Alliance suggests these additions/clarifications to the draft Issues List:

1. Section 2.1 should include subsection (g) "regarding the OPA's progress in responding to the Minister's Directives on conservation, including directives relating to the amounts and types of conservation and the technologies included in conservation".
2. Section 2.1 should be further amended to include subsection (h) "regarding the OPA's progress in developing programs targeted at low income customers".
3. Section 2.1(e) should be amended to add, after the word "standards", the phrase "the OPA's progress in estimating the impacts of such changes, over the plan period, and beyond".

The Alliance will also make more general submissions in support of the draft Issues List proposed by Board staff.

Yours sincerely,

FOGLER, RUBINOFF LLP
