Hello,

As per the above newspaper's item on the issue, the resolution to recognize the dangers posed to residents of Lloydtown-Aurora Road in Pottageville by the pipeline, and the resolution to work on a re-routing of same, was unanimously passed. Residents were present and hope Enbridge will seriously consider a re-routing to one of the alternate routes already assessed.

Although Enbridge feels they have done their best in reassuring residents that safety hazards are minimal, we still strongly feel the dangers are serious and there is a need for a re-routing, away from our homes and families.

Enbridge should consider the above re-routing as an act of good faith towards admitting that they perhaps erred on the fact that environment should be chosen over human lives and therefore make the decision to re-route the pipeline.

Regards,
Marie Filipe and family
