**Re: Great Lakes Power Transmission LP (“GLPT”)  
Transmission Rate Application for 2011 and 2012 (EB-2010-0291)**

On January 7, 2011 in accordance with Procedural Order No. 1 in the noted proceeding (EB-2010-0291), the Applicant filed its responses to interrogatories from Board staff and other intervenors of record. In that letter, the applicant requested that its response to Board staff Interrogatory # 40 be treated as confidential indicating that the requested load information on delivery points of certain large load customers may reveal proprietary information about them

The Board notes that the subject information is of the same nature and substance as information that has been declared confidential by the Board in a previous proceeding. The Board accepts the applicant's submission regarding the sensitivity of the information and grants its request to treat its response to Board staff Interrogatory # 40 containing (the “Requested Confidential Load Information”) as confidential. Counsel, experts or consultants for intervenors who wish to have access to the Requested Confidential Load Information may receive it provided that they have signed or will sign the Board's Declaration and Undertaking. The Declaration and Undertaking can be found at Appendix D of the Practice Direction.

Yours truly,
